OBJECTIVE

An enterprising Computer Science graduate with passion for programming. Proficient in developing responsive and user-friendly web applications using React.JS and NodeJS. A quick and keen learner of new technologies with utmost dedication to deliver outstanding results.

EDUCATION

B.Sc Computer Science | CGPA 7.0/10

St. Joseph's college, Trichy | June 2016 - April 2019

WORK EXPERIENCE AND PROJECT DETAILS

Frontend Developer Intern

Canny Digital Solution Pvt Ltd, Chennai | Oct 2023 - Feb 2024

- Worked on Progressive Web Application development(PWA).
- Involved in components development, UI implementation, API integration and adopting best practices.

Process Associate (Telstra)

Tata Consultancy Services, Chennai | Dec 2019 - Apr 2023

- Processing and timely closure of customer billing dispute cases.
- Resolution of customer disputes related to incorrect pricing, billing, and system issues.

Accomplishments

- 7 times Recipient of customer **appreciation and recognition** during my tenure in TCS for excellence in work.

PROJECTS

Wedding and Beyonds (WnB) App (Canny Digital Solution Pvt Ltd)

Duration: 4 Months

Wedding and Beyond (WnB) User App is for wedding-related services and purchases.it includes an exclusive coupon feature for jewelry, furniture, and cars from renowned brands affiliated with WnB.

My roles and responsibilities

- Building mobile responsive UI by creating functional components in **ReactJS**.
- Integrating API for various events on the application and Fixing UI related bugs.
- The completed tasks are raised with the pull request and the codes are deployed in repository

Project URL: <https://www.weddingbeyond.com/>

Agile methodologies followed

- Jira, Bitbucket
- Daily Scrum meetings. Updating assigned task status in Jira

Ecommerce App (Self-developed)

A feature-rich E-commerce platform enabling seamless user authentication, secure online payments via Razorpay, and dynamic cart management.

- Developed using ReactJS with Redux Toolkit for efficient state management in frontend.
- Implemented backend services using Node.js and MongoDB.
- Integrated Razorpay for secure online payments and implemented automated email generation for order confirmations and transactional updates, ensuring a seamless and reliable user experience.

TECHNICAL SKILLS

- | | |
|--------------|---|
| • ReactJS | • Redux (Redux toolkit) |
| • NodeJS | • MongoDB |
| • Express.js | • Code Architecture : Mono repository, Atomic structure. |
| • Javascript | • GitHub: |
| • CSS3 | https://github.com/Josephkennedy603 |
| • HTML5 | |

MY OTHER SELF-DEVELOPED APPS

Acquired hands-on experience on fullstack development. These apps were developed on my own.

CRUD App

- Designed and developed a CRUD application to perform **Create, Read, Update, and Delete** operations.
- Utilized the **MERN stack** (MongoDB, Express.js, React.js, Node.js) for seamless integration between the frontend and backend..

Dictionary App

- Developed with **ReactJS**.
- Used **Axios** for fetching the data.

CERTIFICATION AND TRAINING

- 5 months of **MERN Stack** training - July 2024 to December 2024
- 4 months of **JavaScript** certification on Coursera. Feb 2024 to may 2024
- 3 months of **ReactJS** training.- Apr 2023 to July 2023
